IRRIGATION DIVISION.

Dated 21st February 1918.

It is hereby notified that a Boiler and Engine (Rejected) will be sold by public auction at Marikanave on the 5th April 1918 by the Sub-Assistant Engineer in charge of Vani Vilas Sagara Range. Persons desirous of purchasing the same are requested to be present there on the occasion.

S. A. RAMASAWMY IYER,
Executive Engineer.

WATER-SUPPLY DIVISION.

Abstract Notification, dated 4th February 1918.

The attention of the public is drawn to the Notifications calling for tenders for the supply of casuarina, jungle fuel and charcoal required for the use of this Division for the year 1918-19, published in Part IV, pages (144, 145 & 146) of the *Mysore Gazette* dated the 7th February 1918, tenders for which will be received by the undersigned up to 12 noon of 1st May 1918.

Abstract Notification.

The attention of the public is invited to the detailed Notification published in the issue of the 14th February 1918, calling for tenders for the supply of 730 tins of kerosene oil for the Harihar pumping station during the year 1918-19 which will be received by the undersigned up to 12 noon of the 1st May 1918.

Notice.

Tenders for the supply of 57 of 16" diameter and 12 feet lengths and 161 of 15" diameter and 12 feet lengths cast iron spigot and socket turned and bored pipes will be received by the undersigned up to the 15th April 1918, as per specification noted below which can be obtained from undersigned on application.

2. Each tender should be accompanied by a deposit of Rs. 1,500 in Government currency notes only as earnest money and should be sent in a sealed cover superscribed "Tenders for the supply of 15" and 16" diameter cast iron spigot and socket turned and bored pipes."

3. The final acceptance of the tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

4. Within eight days of the accepted tender, the successful competitor will be required to execute the usual contract bond, in default of which, his tender will be cancelled and his earnest money forfeited.

5. The name of the successful competitor, whose tender has been accepted will be posted on the "notice board" in the undersigned's office in the usual course and no enquiries regarding the acceptance or rejection of a tender, will receive any reply.

6. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

Specification.

All the pipes to be turned and bored of uniform bore and uniform thickness throughout without any belts and of the full specified diameters and to be perfectly free from sand, air holes, flaws and defects of any kind.

2. All pipes to be cast vertically with socket downwards in dry sand moulds.

3. The thickness and weight of the pipes to be as per standard trade practice, suitable for a working head of 500 feet, the least thickness being 7/8".

4. The width and depth of sockets of the pipes to be made according to trade practice

5. Each pipe to have its weight distinctly painted inside the socket after being dipped in Dr. Augus Smith's solution.

6. A margin in weight of not more than 2½ per cent will be accepted.

7. The 16" diameter pipes to be of an approximate weight of 17 cwts. and the 15" diameter pipes of 15½ cwts.

8. All pipes to be made in strict accordance with the specification noted above.

S. SRINIVASA IYER,
Executive Engineer.
